

December 17, 2010

Mr. Mike Nevins
Full Spectrum Solutions, Inc.
712 East South Street
Jackson, MI 49203-4403

Dear Mike: *& Full Spectrum*

You should have already received official UC Davis thanks for Full Spectrum Solutions' gift of \$5,000, but before adding this personal letter of gratitude, we decided to wait till the \$1 million for the Rosenfeld Chair was actually achieved.

Well, thanks to the persistent fundraising by some of my friends and the prodigious generosity of all of you, at the last UC Davis Energy Efficiency Center Board of Advisors meeting, Ralph Cavanagh announced that the Rosenfeld Endowed Chair in Energy Efficiency is fully funded by gifts and pledges of \$1,000,001! (The last *gold* dollar was contributed by Stanford Professor, Jim Sweeney, Director of Stanford's Precourt Energy Efficiency Center, and many other centers!)

I was, of course, flattered by all the hype heaped over me at the symposium and dinner last March, but it's also permanently satisfying to see such an outpouring of support for the UC Davis Energy Efficiency Center which was the first major university center established to promote the efficient use of energy.

The Environmental Energy Technology Division at Lawrence Berkeley National Lab (LBNL), has provided me an office from which I continue to work promoting environmentally friendly energy technologies that save money and help delay global warming. My current cause, as most of you know, is white urban roofs to cool buildings, cities and our planet.

My personal contact information is below and I hope we'll continue to stay in touch.

With profound thanks and best wishes for 2011,

Art

Art Rosenfeld
