## Electrodeless fluorescents reduce energy costs with a 1-for-1 halide replacement

Full Spectrum Solutions' new patented EverLast Electrodeless Fluorescent Technology offers 100,000 hour rated bulb life and replaces metal halides 1-for-1 while it reduces energy costs up to 60%, offering the lowest lifetime cost of any light source. With an EverLast 6/10 zero maintenance warranty, it fits universal voltage standards 120/208/220/277. It operates 800° cooler than HID sources, with balanced 5000 kelvin 90+ CRI output and low temperature starts to -30C. Dimming options are available for all fixtures.
