

EVERLAST LED T8 GLASS LAMPS are mercury-free and energy efficient, designed to replace existing T-8 fluorescent tubes. Same socket, same ballast, and no wiring required.

Plus, **EVERLAST LED T8 GLASS LAMPS** can run directly off building line power, eliminating fluorescent ballast systems and external drivers to deliver high quality lighting solutions that use less energy.

A simple and flexible retrofit solution with low installation costs.

LED T8 GLASS LAMPS

BLEDF18T8-850-330

SPECIFICATIONS

PART NUMBER:
BLEDF18T8-850-330

WATTAGE:
18

LIGHT OUTPUT:
2,203 lumens

COLOR TEMPERATURE:
5,000K

COLOR RENDERING INDEX:
80

TUBE COLOR:
white

MATERIAL:
glass

TYPE:
self-ballasted /
ballast-compatible

INPUT VOLTAGE:
AC100-277V

BEAM ANGLE:
330°

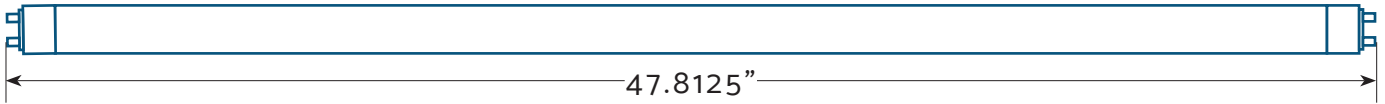

LENGTH:
47.8125"

CERTIFICATIONS:
UL listed
